RE: **PA Chamber memo: Support H.B. 2266 & H.B. 2469 - Strengthening Local Transportation Tools & Infrastructure Delivery**

---

On behalf of the PA Chamber of Business and Industry, I write to express support for House Bills 2266 and 2469 as they come before the full House for consideration today.

H.B. 2266 provides a long-overdue update to the Highway Transfer “Turnback” Program by modernizing municipal maintenance payments to reflect modern project costs. These updates will provide greater predictability and fairness for local governments that have assumed responsibility for maintaining former state roads and will encourage more municipalities to participate in the program. Encouraging local stewardship of these roadways supports more efficient asset management and allows PennDOT to focus its resources on major corridors critical to statewide and regional commerce.

H.B. 2469 complements this effort by expanding and clarifying the ability of local governments to utilize public-private partnerships (P3s) to deliver transportation projects. By enabling counties and major municipalities to collaborate with the private sector on the design, financing, construction, and maintenance of infrastructure, the bill promotes innovation and more efficient use of public resources. This added flexibility allows local governments to pursue creative financing and delivery methods within the existing P3 review structure, helping to accelerate project delivery, improve infrastructure quality, and better address pressing transportation needs.

Together, these bills represent practical, forward-looking approaches to infrastructure management and investment that will strengthen Pennsylvania’s transportation system and economic competitiveness. The PA Chamber respectfully urges your support.
